Short bio. I am an associate professor in School of Interactive Computing at Georgia Tech. I received my Ph.D. degree in Computer Science from the University of Washington in 2005. My research interests are in computer graphics and robotics, including physics-based animation, character animation, optimal control, reinforcement learning, and computational biomechanics.

In physics, the n-body problem is the problem of predicting the individual motions of a group of celestial objects interacting with each other gravitationally. Solving this problem has been motivated by the desire to understand the motions of the Sun, Moon, planets, and visible stars. In the 20th century, understanding the dynamics of globular cluster star systems became an important n-body ...

Abstract: Diagrid structural typology has its origin at the crossroads of architecture and engineering and has proved to be extremely compliant in structuring broad range of building forms and spans. The early applications of diagrid systems have not focused on exploring its potentials so much, hence a need for this issue is thus created.

4 For this, the friction force behavior as function of normal force and sliding velocities (i.e. Stribeck curves) may be stored as lookup tables to be accessed during the dynamic analysis.

The optimum functional characteristics of suspension components, namely, linear/nonlinear spring and nonlinear damper characteristic functions are determined using simple lumped parameter models. A quarter car model is used to represent the front independent suspension, and a half car model is used to represent the rear solid axle suspension of a light commercial vehicle.

Introduction to Object-Oriented Modeling and Simulation with OpenModelica (PDF format, 6.6 MB) - a more recent tutorial (2012) by Peter Fritzson The Modelica Tutorial, version 1.4 (PDF format, 180 Kbyte) gives a comprehensive overview of all language elements with many practical examples. This version refers to Modelica version 1.4, but works still well as an introductory text.
