Macroeconomics: Economic Growth, Fluctuations, and Policy

Family economics applies basic economic concepts such as production, division of labor, distribution, and decision making to the study of the family. Using economic analysis it tries to explain outcomes unique to family's such as marriage, the decision to have children, fertility, polygamy, time devoted to domestic production, and dowry payments.

Family economics - Wikipedia

Law and economics or economic analysis of law is the application of economic theory (specifically microeconomic theory) to the analysis of law that began mostly with scholars from the Chicago school of economics. Economic concepts are used to explain the effects of laws, to assess which legal rules are economically efficient, and to predict which legal rules will be promulgated.
