Strongwell is actively involved in the advancement of FRP technology for civil infrastructure applications. These efforts include the research and development of new FRP products as well as involvement with ASCE, AASHTO, ASTM, FHWA and NIST in the establishment of engineering and performance standards.

Infrastructure - Strongwell

Biocomposite (bio from Greek 'alive') is a composite material formed by a matrix and a reinforcement of natural fibers. These kind of materials often mimic the structure of the living materials involved in the process keeping the strengthening properties of the matrix that was used, but always providing biocompatibility.

Biocomposite - Wikipedia

RIVNUT® blind rivet nuts and studs are the most versatile solution for fastening resilient threads to thin-walled components. A situation, when cut threads are usually not an option.

RIVNUT® Blind rivet nuts and RIVSTUD® blind rivet studs

As our customer, potential customer, community member or shareholder, we know that sustainable products, practices and services are important to you. Sustainability, in both the solutions we offer to help you meet your goals and in our own operations is important to us, too.

Sustainable Polymer Products, Practices & Services

The Broadest Portfolio of High Performance Tire Paints. Our wide variety of, both inside and outside, pre-cure tire paints are developed with the goal of improving the efficiency of the tire manufacturing process and extending the life of our customer's critical manufacturing components, such as bladders.
